

Dear FCC, We feel that the Indiana Telephone Privacy laws should remain in effect as determined by the State. We oppose "unsolicited" telemarketing calls for any purpose. We feel that when we want a service, we will contact the companies of our own choosing. Telemarketing calls are a form of "harrassment" and very "annoying". The number of calls we receive has drastically dropped since January 1, 2005 and we would like the telemarketing calls to cease all together. We have NEVER purchased, nor will we purchase, goods or services from the annoying calls made by telemarketers. Thank you for allowing us to comment.
